

CS ACTION

# 2025 IMPACT REPORT

**Commission Shift Action**, the advocacy partner of Commission Shift, mobilizes the public to hold the Railroad Commission of Texas accountable to its mission through legislative involvement and voter education and empowerment.

Commission Shift Action has mobilized hundreds of our supporters to advocate for more robust oil and gas oversight in Texas – protecting groundwater from unplugged wells, strengthening waste pit rules, and ensuring public safety from carbon capture and storage (CCS) facilities when they fail.

Since 2022, we've worked quietly with a shoestring budget to build infrastructure for our work, and we're ready to do more with your help.

During the 88th and 89th Texas Legislative sessions, we met with legislative offices to champion bills on ethics, campaign finance, and groundwater protection. We're proud to work directly with impacted Texans in oil and gas regions to communicate with lawmakers about the changes we want to see in our state.

Commission Shift Capitol Visit, February 2025

## 2025 OIL AND GAS LEGISLATIVE WINS BY THE NUMBERS

75

BILLS TRACKED

1,723

TOTAL PETITION SIGNERS

61

LEGISLATIVE OFFICES VISITED

**PASSED**  
SB 1150

which protects groundwater by prioritizing timely well plugging practices and requiring more testing of inactive wells.

**DEFEATED**  
HB 2790

which would have increased the burden of proof for people filing claims against carbon capture and storage facilities that harm them.

**FUEL OUR FUTURE!**

When you give, you stand with Texans fighting for clean air, safe water, and strong communities.

**HELP US DELIVER OUR NEXT BIG WIN  
BY JOINING US TODAY!**
